Beverly Rampe, *Rising Mists* (2010)

## Annual Juried Exhibit

January 6, 2012  
to  
February 18, 2012

## **Jurors' Statements**

### Judith Greavu

I was delighted to see such high quality work although that level of quality made judging difficult. Clearly, the entries show that Lima Photography Club members and other entering photographers are working on developing technical as well as compositional skills. The high level of skill allowed us to judge most of the works on finer points. We looked for a special viewpoint or expression in the work. I hope all the photographers will be encouraged and continue to learn from each other.

### Richard Neuman

As always, the Lima Photography Club has organized a top notch photo contest. Over the past ten to fifteen years, I have been able to watch the exhibit grow and evolve into a show all involved can be proud of. Not one year has the quality been compromised and this year is no exception to that.
